

Elements routinely addressed with annual and/or biennial hunting regulations:

Quotas and bag limits (annually for every hunting district for upland birds, waterfowl, black bear, deer, elk, moose, sheep, goat, antelope, mountain lion, bison, furbearers and eventually wolf)

Start and stop dates of existing seasons (biennially for archery, rifle, hound and chase seasons for upland birds, waterfowl, black bear, deer, elk, moose, sheep, goat, antelope, mountain lion, bison, furbearers and eventually wolf)

Season structures of existing seasons (biennially for every hunting district for upland birds, waterfowl, black bear, deer, elk, moose, sheep, goat, antelope, mountain lion, bison, furbearers and eventually wolf)

New seasons (biennial/occasional—example is wolf, youth seasons, new start date for general deer/elk season)

Quotas for game damage and management seasons (biennially for every region for deer, elk and antelope)

General rules (wings or feet on upland bird, plug sheep horns, check harvested bears, equipment for archery, trapping setbacks, application procedures, etc.—biennially for upland birds, waterfowl, black bear, deer, elk, moose, sheep, goat, antelope, mountain lion, bison, furbearers and eventually wolf)

Weapons restriction areas, close/restricted areas and definitions (biennially for every region for upland birds, waterfowl, black bear, deer, elk, bison, etc.)

Hunting area boundaries (biennially for every area for black bear, deer, elk, moose, sheep, goat, antelope, mountain lion, bison, eventually wolf, etc.)
